

HITARTH SHAH

MBA Business Analytics & Finance Student | Aspiring Business Analyst / Data Analyst

Mumbai, India • +91 9833912379 • Hitarth.Shah.mba2026@atlasskilltech.university • linkedin.com/in/hitarth-shah-54370b283

PROFESSIONAL SUMMARY

• MBA Business Analytics & Finance student with a B.Sc. in Information Technology and hands-on exposure to Data Analysis, Research & Analysis, SQL/MySQL, Database Management, Data Visualization and software development. • Developed over 6 high-impact applications/projects across machine learning, financial analytics, mobile, web, database, and IoT domains; experienced in transforming raw project data into dashboards, reports and actionable insights. • Technical foundation in Python, R, SQL/MySQL, Firebase, ggplot2, Machine Learning and Git/GitHub, with a strong interest in Business Analyst and Data Analyst roles.

SKILLS

Core Competencies: Analytical Problem Solving, Attention to Detail, Team Collaboration, Leadership, Communication, Quick Learning, Time Management

Technical Skills & Tools: Python, R, SQL/MySQL, Java, C/C++, JavaScript, ggplot2, Firebase, React.js, React Native, HTML5, CSS3, REST APIs, SQL / MySQL, Git / GitHub, Document analytical findings, Present insights and findings clearly, Leadership, Documentation Skills, Presentation Skills, Git/GitHub, VS Code, Eclipse, RStudio, Android Studio

EXPERIENCE

Technical Cloud LLP — Laravel Developer Intern

Mumbai | 2 May 2026 – 20 Jul 2026

- Engineered and optimized Laravel MVC modules and supported live development projects, working across application logic, databases and REST APIs.
- Executed SQL/MySQL data management and database operations; optimized, transformed, retrieved, and organized records essential for application modules.
- Performed in-depth Data Analysis and Research & Analysis to investigate issues, validate database outputs, and generate comprehensive application reports for testing.
- Troubleshoot and enhanced features; used Git/GitHub for version control and collaborated with the development team on live projects.

STRATEGIC PROJECTS

AI-Powered Stock Recommendation & Portfolio Management System

- Designing Predictive Analytics/ML models using market trends and investor risk profiles; performing financial Data Analysis for recommendations, portfolio allocation and risk evaluation.
- Developing Data Visualization dashboards and integrating real-time financial APIs plus NLP-based news sentiment analysis using React.js and Firebase.

NUTS - Nutritional Understanding & Tracking System

- Led end-to-end development of a cross-platform nutrition tracker; integrated Firebase database management, secure authentication and automated food-recognition functionality.
- Conducted Research & Analysis and co-authored a research paper documenting system architecture, model performance and user-study findings.

Stock Price Prediction System

R, ggplot2

- Analysed historical stock-price data and developed regression-based Predictive Analytics models using statistical forecasting techniques.
- Created Data Visualization dashboards and analytical reports with R/ggplot2 to communicate trends and support financial decision-making.

IoT-Based Weather Monitoring System

ESP32, C++, Firebase

- Collected temperature, humidity and pressure data through ESP32 sensors; managed real-time Firebase telemetry and visualized live/historical trends in a React Native app.

Student Training & Placement Management System

Java, MySQL

- Designed and developed a robust database-driven placement portal covering student registration, company records, interview scheduling and outcome tracking using Java and SQL/MySQL.

Train Ticket Booking System

Java, Swing

- Built a desktop booking application supporting seat availability, booking/cancellation flows and ticket history through a Java Swing interface.

EDUCATION

Atlas SkillTech University — MBA in Business Analytics & Finance

Mumbai | 2026 - 2028

CERTIFICATIONS

Programming in C, C++, Python, SQL & HTML — Raj Computers • Java Development for Beginners — Raj Computers • Introduction to R Programming — Raj Computers

POSITIONS OF RESPONSIBILITY

- Project Lead – NUTS (Nutritional Understanding & Tracking System)
- Co-Developer – IoT-Based Weather Monitoring System
- Team Member – Student Training & Placement Management System

ACHIEVEMENTS & CO-CURRICULAR

- Co-authored a research paper on the NUTS Nutrition App, submitted to IJCT/IEEE standards (2025).
- Built 6+ production-grade applications spanning mobile, web, machine learning and IoT domains.
